ABOUT ME

A motivated and curious Computer Science and Engineering (Data Science) student with a strong interest in learning new technologies and exploring innovative ideas. I enjoy taking on new challenges and continuously developing my technical and problem-solving skills.

EDUCATION

Ballari Institute of Technology and Management

B.E. in Computer Science and Engineering (Data Science)

Ballari, India

CGPA: 9.00

TECHNICAL SKILLS

- **Programming Languages:** Python, C, C++
- **Libraries and Frameworks:** NumPy
- **Developer Tools:** Jupyter Notebook, VS Code, Turbo C

PROJECTS

Online Auction System

Python

- Developed a menu-driven Python application for item listing, bidder registration, bid placement, and automatic winner selection.
- Implemented core functionalities using dictionaries, lists, functions, and conditional logic.

Term Life Insurance Management System

C Programming

- Developed a mini-project to manage basic term life insurance policy details, including customer name, age, sum assured, and policy duration.
- Implemented annual premium calculation based on customer age and provided options to display policy details and total premiums paid during the policy term.
- Applied C programming concepts such as structures, functions, pointers, conditional statements, loops, and switch-case statements.

ACHIEVEMENTS AND EXTRACURRICULARS

- **Debate Competition:** Secured 2nd place.
- **Hackathon – Aqua Route:** Developed a solution to identify suitable water-flow routes during floods to help reduce waterlogging.
- **Smart India Hackathon (SIH):** Proposed a technology-based solution for flood prediction and risk assessment using rainfall, soil moisture, and geographical data.

INTERNSHIP AND CERTIFICATIONS

- C Programming Internship
